

## Python Programming Questions(Loop, Dict, Function)

### Write Python programs using Functions:

1. Python program to sort Python Dictionaries by Keys
2. Python program to sort Python Dictionaries by Values
3. Python program to find the sum of all items in a dictionary
4. Python program to remove a key from a dictionary
5. Python program to merge two Dictionaries
6. Program to create grade calculator in Python
7. Print anagrams together in Python using List and Dictionary
8. Check if binary representations of two numbers are an anagram
9. Python Counter to find the size of the largest subset of anagram words
10. Python Dictionary to find mirror characters in a string
11. Counting the frequencies in a list using a dictionary in Python
12. Python program to convert a list of Tuples into Dictionary
13. Scraping And Finding Ordered Words In A Dictionary using Python
14. Create a list of tuples from the given list having a number and its cube in each tuple
15. Sort a list of tuples by the second Item
16. Python Program for Insertion Sort
17. Python Program for SelectionSort
18. Python Program for Bubble Sort
19. Python Program for Merge Sort
20. Python Program for QuickSortSort
